

Kelvingrove Park Treasure Hunt

We want you to use our treasure hunts to get out and explore Glasgow's parks on your bike with your family.

The most important thing about them is that they should be fun!

Find the answers to the questions below and send us a photo of your completed treasure hunt, along with your address and we will send you a prize. This can be done via Facebook, or email (emily.ryder@cyclingu.org)

- 1. Start your hunt in the play park next to the skate park. There are two animal toys to play on - one is a cat, what is the other one?**
- 2. Now go to the fountain! Can you find Robert Stewart? What is strange about the bird above him on the right?**
- 3. Turn right and head up the hill a little bit. There's a statue of a tiger family - what does the mummy tiger have in her mouth?**
- 4. Turn around and head back down the hill away from the tiger family. There's a set of big black gates - how many gold flowers can you see on the gates?**
- 5. Now turn left and head for the other play park, next to the café. There's a bike there, but you can't ride it very far! What colour is it?**
